Safe working starts here

Your employees deserve the best protection, without any hassle. Still, many companies shy away from the complexity of laws and regulations, the time it takes to arrange everything, and the fear of hidden costs. We understand that.

Your challenges

- Finding the right protection is complicated and time-consuming.
- Legislation and reimbursements change and are hard to keep track of.
- Insufficient protection leads to unnecessary risks and absenteeism.
- Protection must be arranged quickly, simply and affordably.

We help your organisation

From advice to delivery, we ensure your employees always have the right eye and hearing protection.
Transparent, simple, and fully tailored to your needs and the Occupational Health and Safety Act.

Simple ordering process

In just a few steps, you can quickly and easily place an order for one or more employees. Need help choosing the right products? We are here to help.

Specialised assortment

Order prescription safety glasses, computer glasses, hearing protection and sunglasses for your organisation. Compliant with the right standards.

Always a store nearby

Fittings and advice in more than 407 Hans Anders stores in the Netherlands and Belgium, carried out by trained opticians and audiologists.

Rely on fast delivery

Together with our trusted partners we ensure the fastest delivery times in your sector.

Clear usage overview

Get full insight into the current status of your order forms, control reminders and invoicing, all managed in one place.

100% satisfaction guarantee

Do you have a problem or question? Our experts are ready to help and always provide a tailored solution.

More than 20 years of exclusive partnership

Since 1982, Hans Anders has been setting the standard in eye and hearing care. As an exclusive partner, we build on that foundation. By working with strong brands and specialists, we accelerate innovation, improve product development, and optimise our service. This enables us to offer companies high-quality eye and hearing protection with the best value for money, through a nationwide network of stores close to work or home.

Certified quality

At Seeh, service means more than just a delivery. Our customised eye and hearing protection meets strict standards and must fit perfectly. That's why we provide expert advice, an efficient ordering process, and timely delivery. With an NPS score of 74+, we prove time and again that we deliver world-class service. And we are proud of that.

seeh.nl/en/over-ons

Quality guarantee

We provide reliable eye and hearing protection according to strict quality and environmental standards. With our ISO 9001 and ISO 14001 certification, you can be sure everything is in order. This means our products are not only durable and safe, but also produced and delivered according to fixed procedures.

Highest satisfaction

score of 74, we show that customers value us as a partner who keeps agreements and solves problems. Our service is personal, prompt, and professional. We respond to emails within two hours, and when you call, you will be connected directly to a knowledgeable employee. Seeh is not just a supplier, but a partner.

Arrange eye and hearing protection in 4 simple steps

Your employees deserve the best protection, without any hassle. With Seeh, you can arrange this quickly, easily and in full compliance with laws and regulations. No more loose receipts or complicated expense claims; everything is taken care of in one efficient process.

Most frequently asked questions about prescription safety glasses

Health and safety legislation, prices and obligations can sometimes make it complicated to make the right choice. That is why we have created a comprehensive knowledge base where we provide clear and practical answers to these questions.

🔗 seeh.nl/en/kennisbank

Is the employer required to reimburse safety glasses?

Yes, according to the Working Conditions Act, the employer must provide appropriate eye protection if the work involves a risk of eye injury. This also applies to prescription safety glasses. Employers must provide these free of charge so that employees can do their work safely.

Can I also pay for prescription safety glasses in the store?

Of course, you can pay directly in cash or by card in the shop. If you would rather order multiple pairs of glasses for colleagues, please create a business account. This allows you to easily order for the entire team in one go and benefit from our comprehensive business ordering process.

How much does a pair of prescription safety glasses cost?

At Seeh, we offer three simple product lines, so there is always a pair of prescription safety glasses to suit every budget. Choose from our basic, mid-range or superior line and determine whether single vision or multifocal lenses are needed. This allows us to offer a suitable and safe solution for every employee.

How long does it take to produce prescription safety glasses?

The average delivery time is 5 to 10 working days. This is one of the fastest in the market thanks to our close collaboration and linked systems with Hans Anders. This means your employees can get back to work quickly and safely with their new glasses.

Prescription computer glasses

Long hours of screen work put a heavy strain on the eyes. Fatigue, dry eyes, headaches and concentration problems are common among employees. A standard pair of glasses or contact lenses is often not sufficient, because screen work requires a different viewing distance.

With prescription computer glasses, your employees will work more comfortably, see more clearly and complaints are prevented. This results in less absenteeism and greater productivity.

Exclusively available at every Hans Anders store in the Netherlands and Belgium. Free eye test and advice.

Worksafe lenses

Advanced grinding technique optimises the field of vision for digital screens.

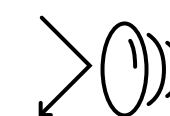

Wide selection of frames

Various styles and price ranges to fit every company budget.

Three optimal viewing distances

Specialised lens options for near, intermediate and extended working distances, tailored to different workplaces.

Advanced coatings

Optional scratch-resistant, anti-reflective, Ultra Coat and Blue Filter for extra protection and comfort.

Facts about computer work and health

Many employers do not realise that screen work is a major cause of absenteeism and productivity loss. Employees who spend long hours behind a screen every day are more likely to suffer from eye, neck and shoulder complaints. This not only causes discomfort but also increases the risk of absenteeism.

What are the risks for your company?

- Higher risk of absenteeism and productivity loss.
- Employees experience discomfort and fatigue, reducing job satisfaction.
- Legal obligations regarding screen work are often underestimated.

44%
of employees work 6 hours or longer behind a screen every day, 23% even 8 hours or more.

Source: NEA 2022 (TNO/CBS)

14%
of absenteeism days are caused by complaints related to screen work.

Source: TNO, Factsheet beeldschermwerk 2023

6 hours
per day behind a screen significantly increases the risk of arm, neck and shoulder complaints (RSI).

Source: Douwes M., Heijnen M., de Vroome E. (2022)

“Seeh ensures a smooth and digital process for computer glasses requests. As a result, everything runs efficiently and seamlessly, from request to delivery.”

Haaglanden Medical Center

The benefits of computer glasses

Many employees working behind a screen without the right glasses tend to tilt their head forward or squint their eyes to see better. This often leads to poor posture, which in turn can result in neck and back complaints.

The benefits

- Reduces tired and dry eyes
- Improves posture
- Increases productivity
- Reduces absenteeism and therefore costs

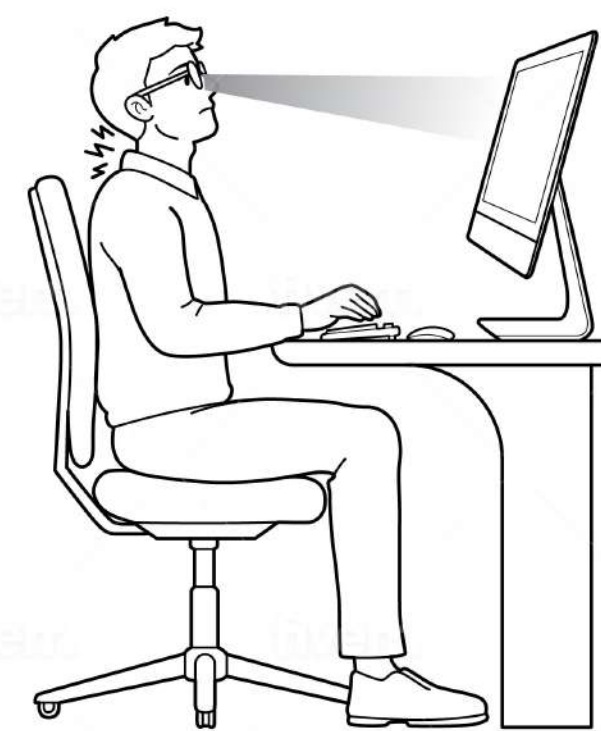

Exclusively available at every Hans Anders store in the Netherlands and Belgium. Free eye test and advice.

No glasses

- ✗ Poor posture
- ✗ Dry, burning eyes
- ✗ Poor sleep
- ⚠ Increased risk of absenteeism

Regular glasses

- ✗ Poor posture
- ✗ Neck and back complaints
- ✗ Less efficient work
- ⚠ Increased risk of absenteeism

Computer glasses

- ✓ No dry eyes
- ✓ Natural posture
- ✓ Fewer neck and back complaints
- ✓ More efficient work

Lenses for computer work

Computer glasses are the right solution for anyone who spends long hours behind a screen, with specially ground lenses for the optimal viewing distance.

Lens types

Single vision

Corrects vision at one specific distance: near or far.

Single vision NeXt

Super sharp and comfortable vision at various (short) distances.

Workforce Multifocal

With Workforce Multifocal lenses you can see well both near and far.

As many as 85% of people over 40 need multifocal lenses.

Nearview (up to 1 meter)

- Used for static tasks
- Reading and screen work performed at the same workstation

Midview (up to 2 meters)

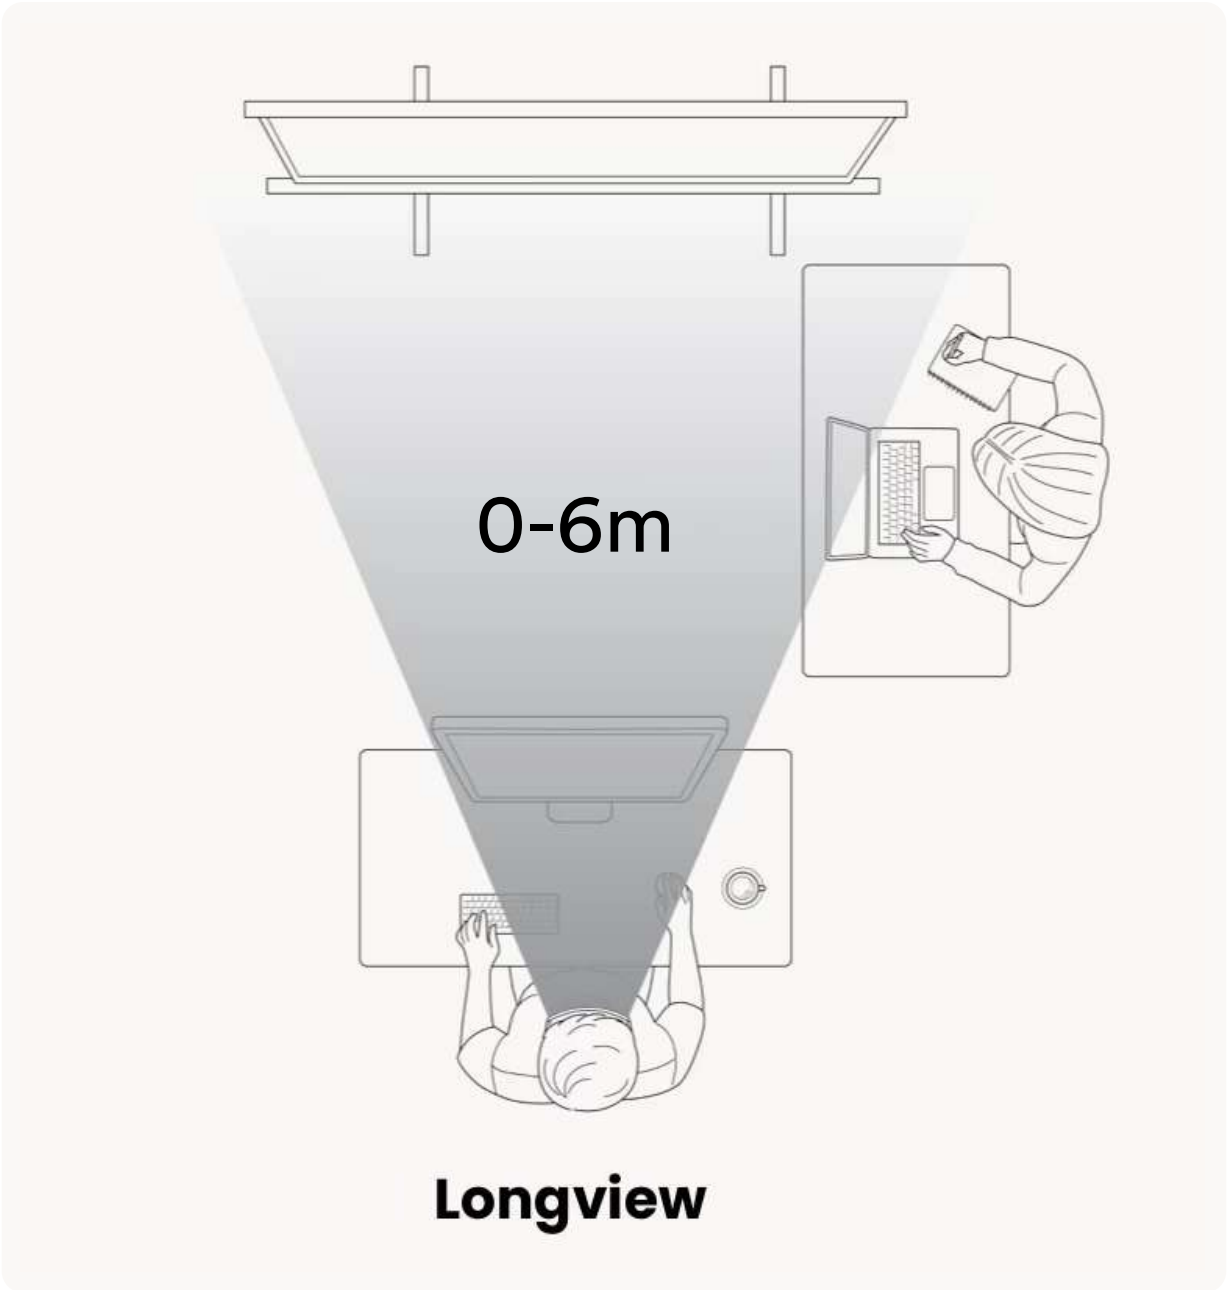

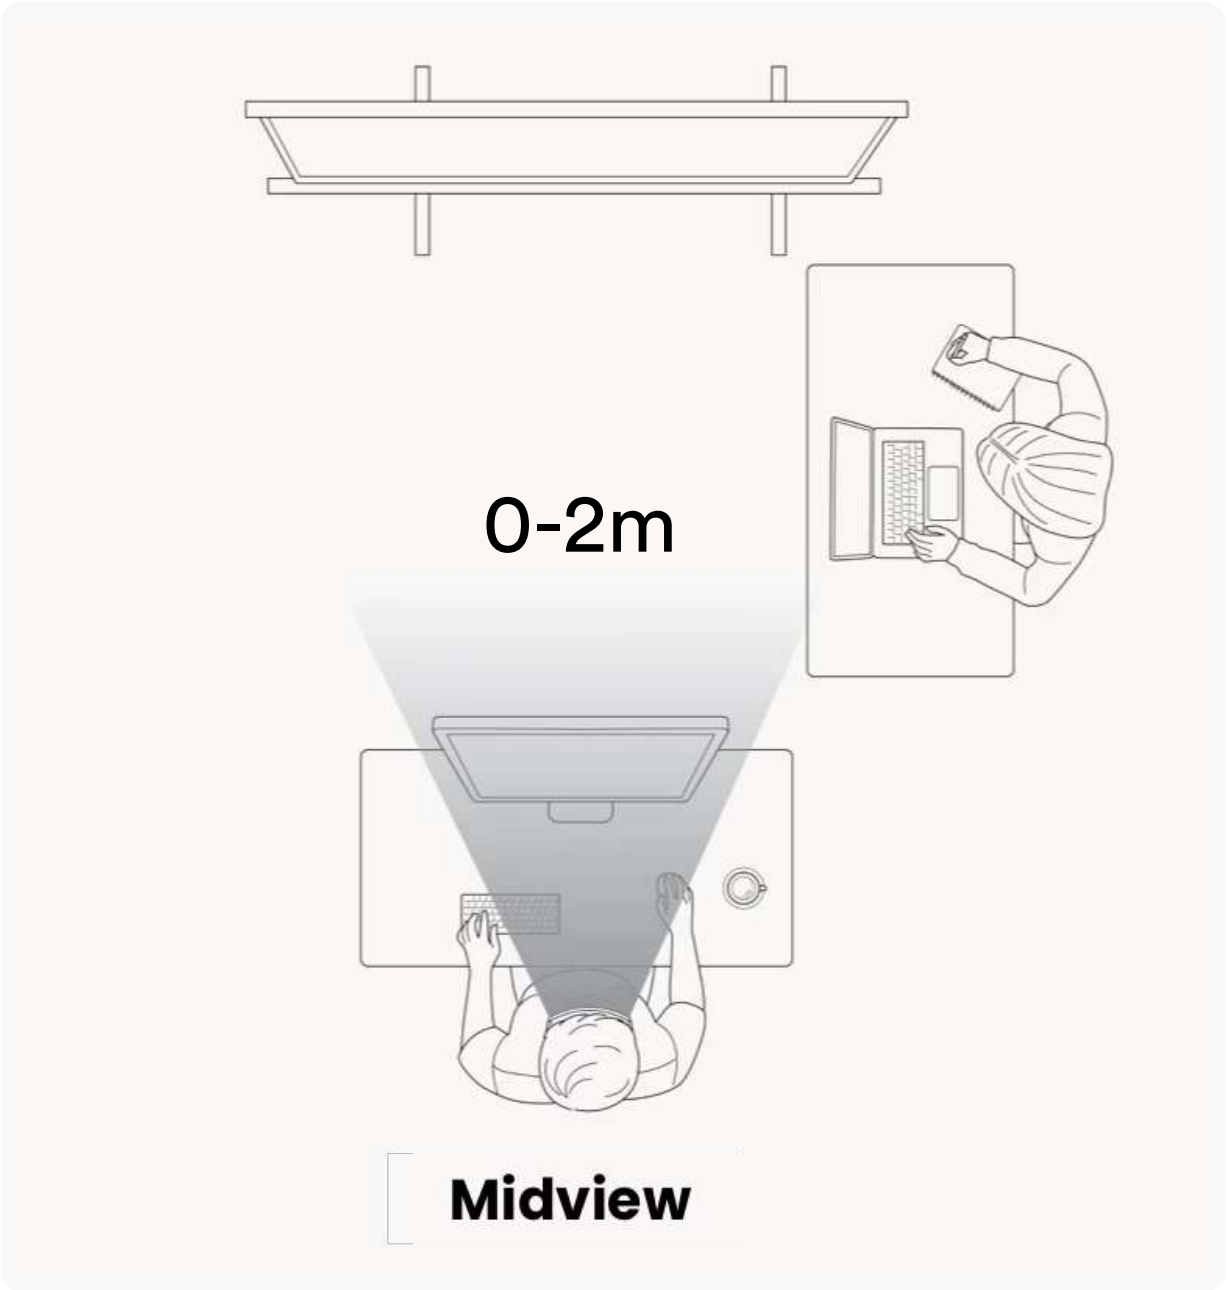

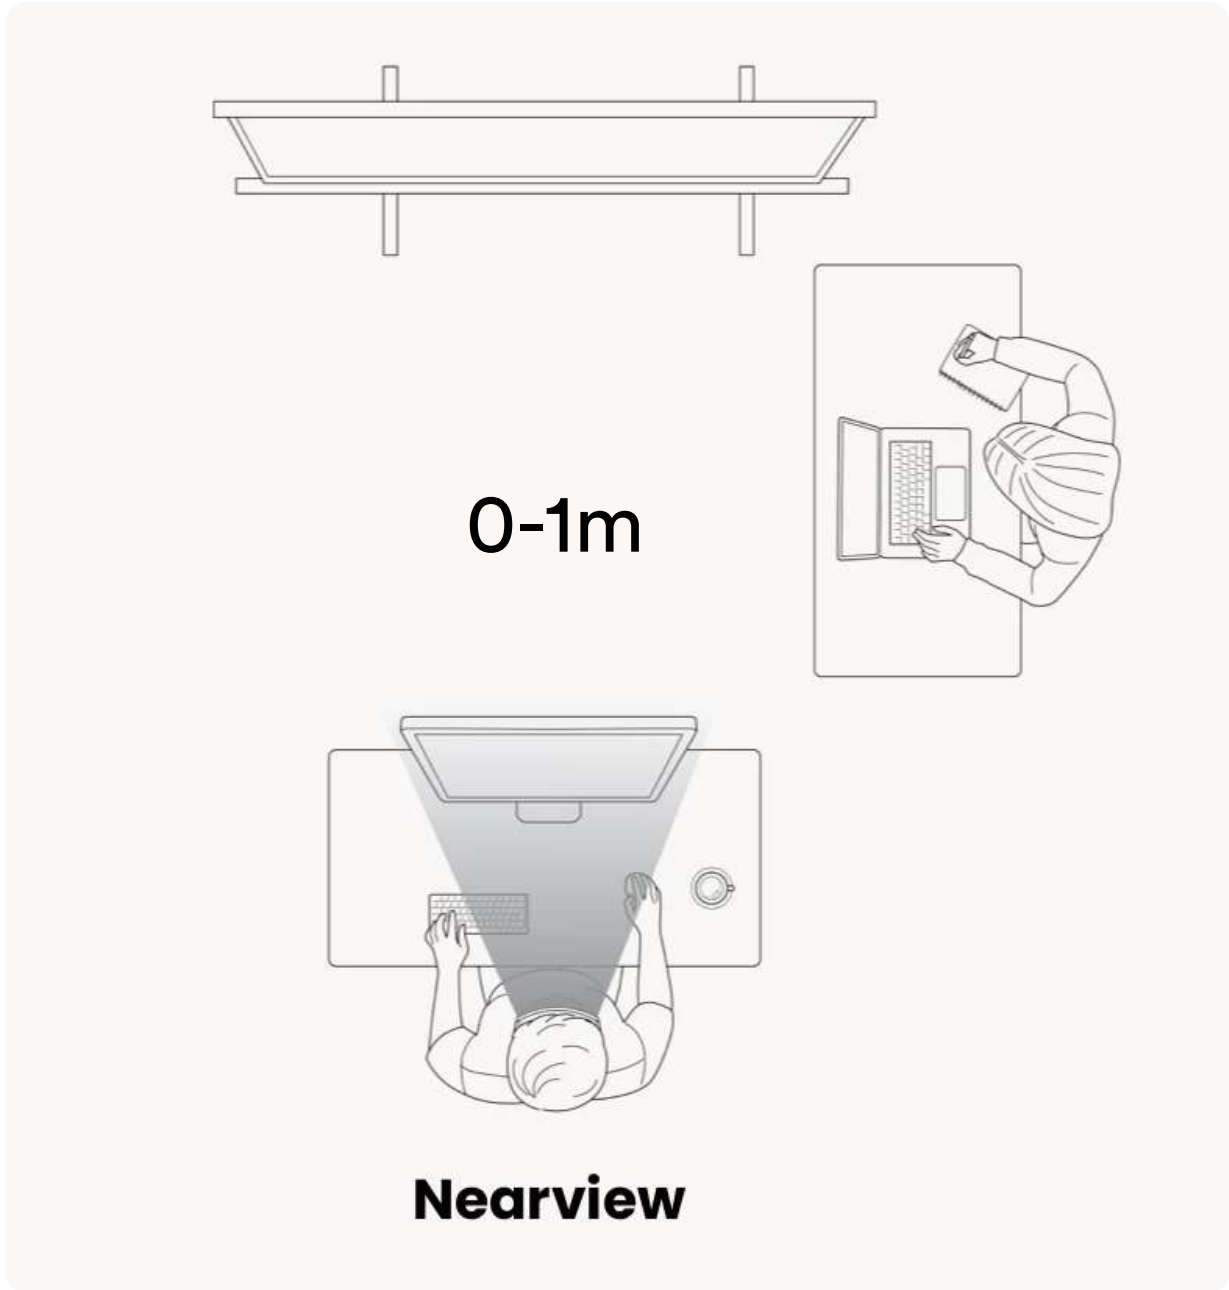

- Combination of screen work and office tasks
- Mainly at short distance from the screen

Longview (up to 6 meters)

- Combination of screen work and office tasks
- Mainly at slightly longer distances from the screen

Workforce multifocal

Our Workforce multifocal computer glasses are specially developed to provide optimal vision at different working distances.

A tailored arrangement for computer glasses

Many employers understand that computer glasses help, but do not know where to start. How do you make sure your employees get the right protection, while keeping your budget under control?

We make it simple with an implementation arrangement. No separate claims or administrative hassle, but a streamlined process in which you decide what is to be reimbursed.

[🔗 seeh.nl/en/contact](https://seeh.nl/en/contact)

Full control over the budget

Avoid unnecessary expenses and decide for yourself how your budget is spent. This way you ensure an efficient arrangement without any surprises.

The right protection for everyone

Every employee gets the same access to suitable computer glasses. No arbitrariness, but a clear and fair arrangement.

Complies with the Health and Safety Act

Keep control of the costs and comply effortlessly with the legal obligations, without administrative burden.

Frequently asked questions about computer glasses

Health and safety legislation, prices and obligations sometimes make it complicated to make the right choice. That is why we created an extensive knowledge base where we answer these questions clearly and practically.

🔗 seeh.nl/en/kennisbank

Is the employer obliged to reimburse computer glasses?

Yes, according to the Health and Safety Act the employer must provide computer glasses if needed for the job. This also applies to prescription glasses. It improves employee comfort and productivity and helps prevent eye strain.

Can an employee co-pay for computer glasses?

Yes, they can if they choose a more luxurious frame or special lenses that are not included in the standard option. The basic provision is offered by the employer, giving the employee the freedom to choose an upgrade.

What is the cost of prescription computer glasses?

“At Seeh, we offer three clear product lines, ensuring a pair of prescription computer glasses for every budget. Together, we’ll find what fits your organisation and, if desired, set up an arrangement.

Can you help our organisation set up an arrangement?

Absolutely! Our specialists are happy to help. We make sure the arrangement matches your needs, complies with the Health and Safety Act and fits your budget. This way you avoid mistakes in reimbursements and payments and everything is well arranged.

Custom hearing protection

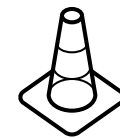

Are you looking for custom earplugs for your employees? Together with our partner Alpine we provide tailor-made hearing protection with maximum wearing comfort. Whatever tasks your employees perform, we help you choose the right earplugs so they are protected against harmful noise.

Some benefits

- Free engraving, colour and case
- Easy reordering with digital scan
- Three months fit guarantee

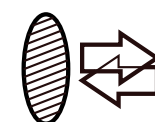

Always a measurement location nearby at selected Hans Anders stores in the Netherlands and Belgium. Or at your site with a minimum of 5 people.

Custom work earplugs

Suitable for different work environments. CE-certified and tested according to EN 352-2:2020 for optimal safety.

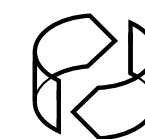

Choose between 24, 25 & 29dB

Advanced filters provide reliable protection against harmful noise levels, so your employees can work safely.

Maximum comfort

Our earplugs are custom made to perfectly fit the ear canal of your employees and offer optimal comfort.

Last for years

Our earplugs are made of durable materials, resistant to intensive use. Includes carrying cord and case for extra convenience.

Custom earplugs and noise levels

Every day many people work in environments with harmful noise levels. Did you know hearing damage is one of the most reported occupational diseases?

From **80 dB(A)** you as an employer are required to provide hearing protection and ensure it is being used.

🔗 seeh.nl/en/gehoorbescherming-op-maat

Certificates

Our earplugs are custom-made and equipped with special acoustic filters that are tailored to the specific working environment. They reduce harmful noise to a safe level, while speech and warning signals remain audible. This allows employees to continue communicating safely and effectively. All models meet the strict European standard **EN 352-2:2020** and combine reliable protection with high wearing comfort. This way you meet the legal obligation and protect your employees against permanent hearing damage.

Decibels

We offer filters with different protection levels, such as 24, 25 or 29 dB, ensuring a proper balance between hearing protection and communication. A lower attenuation level is suitable for environments where communication is crucial, such as workshops or warehouses. A higher attenuation level provides maximum protection in extremely noisy environments, such as metalworking or operating heavy machinery. This way your hearing remains optimally protected without compromising on safety or comfort, even during prolonged use.

The right line for every team

Free of charge you can also choose from a range of colours and have a personal engraving added, such as a name or phone number.

Alpine Music

These earplugs protect your hearing without distorting music. Thanks to the Pro filters with linear damping all frequencies remain balanced. You choose the filter yourself and you can easily put the earplugs in and out.

- ✓ Reduction 19, 22 of 26 dB
- ✓ EN 352-2:2020

Alpine Security

The special acoustic filters reduce harmful work noise to a safe level, suitable for long-term use. With the radio connection, essential communication and safety signals remain clearly audible.

- ✓ Reduction 24, 25 of 29 dB
- ✓ EN 352-2:2020

Most
chosen

Alpine Worksafe

The special acoustic filters in the Worksafe earplugs reduce harmful work noise, such as machines and tools, while conversations and safety signals remain audible.

- ✓ Reduction 24, 25 of 29 dB
- ✓ EN 352-2:2020

Hans Anders Basic 49

Very extensive modern collection of own-brand sunglasses.

Hans Anders Basic 59

Stylish frames with an eye for detail.

Hans Anders Basic 69

Luxurious and detailed frame collection.

Most frequently asked questions about sunglasses

UV radiation is an occupational hazard, and employers must take adequate protective measures. Therefore, if employees are exposed to sunlight while performing their work, sunglasses are considered PPE.

If exposure to sunlight cannot be prevented, for example by organising the work differently, the employer must provide sunglasses as PPE.

🔗 seeh.nl/en/kennisbank

Is the employer obliged to reimburse sunglasses?

In some cases, yes. This applies when the sunglasses are part of personal protective equipment, for example safety sunglasses with CE marking for outdoor work or bright light. In that case, the glasses fall under the Working Conditions Act and the employer must provide or reimburse them. This ensures that employees remain protected and maintain good vision during their work.

How much do sunglasses for business use cost?

Sunglasses for work are available in many different designs and price ranges. It therefore depends on what your employee needs. Thanks to our online ordering and management platform, we make it easy to order business sunglasses (with prescription). You can create your own package/arrangement, tailored to your budget and your employee's needs. You pay for what you order and you never have any unexpected additional costs afterwards.
