Explanation otoplastics

Are you looking for customised otoplastics/earplugs for your employees? Together with our partner Alpine, we offer custom-made hearing protection with the highest wearing comfort. No matter what kind of work your employee does, we are happy to help you with the right custom-made earplugs so that your employee is protected against harmful noise.

Worksafe

Otoplastics for general work.

Security

Otoplastics for portophone connection.

Musicsafe

Otoplastics with linear attenuation that protect against loud music.

Decide together with the audiologist what is the best choice for your work.

Measuring in the store

Download directly the necessary order forms with which employees can have otoplastics measured or checked in-store. Your employee can then make an appointment with an audiologist from a Hans Anders shop nearby. This can be done online via the Seeh website, via the Hans Anders website or by calling 0800-0075. Then your employee can use the order form to have the otoplastics measured or checked in the shop. It's that simple.

Measuring on location

Would you rather have the otoplastics fitted at your location or have them checked periodically? This is possible from as little as 5 sets per session. Again, you only need to make an order form, after which we will contact you to make an appointment for fitting/checking the hearing protection.

Complimentary

We deliver as standard:

- ✓ Free carrying case
- ✓ Free cord & clip or minigrip
- ✓ Free choice of colour
- ✓ Free choice of hard or soft
- ✓ Free engraving of your name

Mini-grip

Removing earplugs from the ears is not always easy. Seeh therefore offers a unique removal aid called the mini-grip. A small and inconspicuous tab provides a better grip and makes it easy to remove the earplug from the ear. The mini-grip is made from the same flexible material as the earplug, which means that the ear protectors remain comfortably in your ear.

Your own name and unique number on the earplugs

Earplugs easily get lost or confused with someone else's. Each of our otoplastics is provided with a unique number and your own first name. As a result, the owner of the earplug can always be traced easily and quickly.

- Protection against loud sounds
- Retention of ambient noise
- Re-ordering with saved scan
- Available with detection ball
